### Why Partner with a PEO?

**Last year alone there were 4,000 new regulations.** Businesses today need help managing increasingly complex employee related matters such as health benefits, Workers' Compensation claims, payroll, payroll tax compliance, and unemployment insurance claims. By partnering with a PEO client you would be able to concentrate on the operational and revenue-producing side of your business. PEO's provide more flexibility when it comes to covering worksite risks and provide more effective risk management strategies and claims handling due to a higher level of customer intimacy.
